

# The C2 Development Course

EXAM SKILLS & REAL-LIFE ENGLISH

by BEN CROMPTON ELT

The journey to C2 doesn't end with a textbook. This 10-week C2 Development Course is built for people who want to learn real-life English and ace the exam. With guided self-study reflection tasks, a bank of exam practice activities, and weekly 90-minute live labs focused on authentic fluency and precision exam tactics, this is where high-level learners become C2 masters.

## What's included

- 1 The Big Question**  
Every two weeks, you're given a new inquiry question to drive your learning. Dive into complex, real-world topics that force you to use English to think, argue, and solve problems. This builds the natural fluency needed to excel in C2 Proficiency (and real life!)
- 2 90-minute live sessions**  
Take part in dynamic, fast-paced discussion classes that give you expert exam training with high-level real-life English. You'll also explore tricky aspects of the test, giving you the expert skills you need to achieve your best on exam day.
- 3 Real-world material**  
Think podcasts, editorials, and documentaries intended for native speakers. You'll learn to unpick the subtle idioms, cultural references, and hidden meanings that help you sound like an authentic, confident English speaker.
- 4 Exam bank**  
You'll have access to an extensive exam bank of practice tasks for each part of the exam, with weekly opportunities for feedback on your written and spoken English through exam-style tasks.
- 5 WhatsApp community**  
bridges the gap between our live sessions. You'll get short, punchy daily tasks to keep your brain in *English mode*, plus a space to swap ideas with peers and get direct support from your tutor, Ben.

## When does the course run?

Friday 10<sup>th</sup> April 2026 - Friday 19<sup>th</sup> June 2026

*Sessions are typically held on Friday evenings or Saturday mornings to accommodate work schedules.*

*Times will be confirmed once the course is underway.*
